

Lab assistant position

Coccolith responses to ocean acidification

Background

A full-time lab assistant position is available jointly at the European Institute of Marine Sciences (IUEM) and the French Research Institute for Exploration of the Sea (IFREMER) in Brest, France. The position is funded by the LabexMER International Chair on Stable Isotopes.

This position will focus on culturing coccoliths under variable pH and characterizing culture responses to ocean acidification.

Expected profile

The candidate must have already completed a B.S. or higher level degree and have previous experience in this work.

Type of work contract

- Start date: 20th of June, 2016
- Duration of appointment: 8 months
- Salary range: dependent on experience

How to apply

Application deadline: May 10, 2016.

To apply, please send cover letter, 1-2 page summary of previous research experience and interests, detailed CV including names of two references, **by e-mail** to: [contact-labexmer\[at\]univ-brest.fr](mailto:contact-labexmer[at]univ-brest.fr)
