

# Journée de l'axe 3

Jeudi 23 novembre 2017

Pôle numérique brest iroise

14H00 à 18H00

**Présentations scientifiques  
suivies d'interactions  
géobiologiques !**

## Programme

14h00–14h30	Bilan Axe 3, les AO à venir, point sur EUR Isblue	Les coordinateurs Axe 3
14h30–14h45	Magmatic and tectonic processes at a large offset transform system, Equatorial Mid Atlantic Ridge	Marcia Maia
14h45–15h00	Stable isotope insights into carbon cycling on the early Earth	Martin Homann
15h00–15h15	Investigating the distribution of procaryotic diversity along the salinity gradients of the deep-sea hypersaline anoxic lakes in the Eastern Mediterranean Sea	Sabrina Berlendis
15h15–15h30	Improvement of genetic tools for <i>Thermococcus barophilus</i>	Rémi Dulermo
15h30–15h45	Pause	
15h45–16h00	Nematode microbiome in a hydrothermal vent	Laure Bellec
16h00–16h15	Macrofaunal and meiofaunal interactions in deep-sea hydrothermal vents: focus on colonisation experiments at the Lucky Strike hydrothermal vent field	Elisa Baldrighi
16h15–16h30	Planar optodes: an innovative tool in marine geochemistry	Lucie Pastor
16h30–16h45	Rhythm & Blue: Chronobiology in a deep-sea ecosystem	Audrey Mat
16h45–18h00	Interactions Géobiologiques (Pot)	

labex
